Cobra Connex Track

Vehicle tracking in real-time
- Equipped with 6 axis accelerometer & gyroscope for precise collision detection and accident reconstruction
- Check vehicle location in real-time

Stolen vehicle tracking & recovery
- If your vehicle is stolen, report to our SOC. Upon verification, our SOC will initiate the stolen vehicle recovery process and start tracking in real-time. Our SOC will then coordinate with the police to ensure a swift recovery

Battery-fit solution with 2-wire cable - no wiring with the vehicle
- Designed for vehicle tracking without any wiring connection with the vehicle if fitted on the battery

Cabin-fit solution with 3-wire (+15, +30, GND)
- 3-wire device can also be fitted via in-cabin to detect ignition status

M2M telco coverage
- Inbuilt with SIM chip

Automatic Driver Recognition (ADR)
- The ADR device is paired with an app to provide FAST emergency response services. If an accident occurs, the ADR device sends a crash alert to our 24/7 SOC who will then contact the actual driver to check if any emergency assistance is needed

Safe driving alert
- The ADR device also provides safe driving alert:
  - Phone distraction - ADR device will beep 2x if smartphone is used while driving
  - Road speed limit alert - ADR device will beep each time if road speed limit is exceeded

Mobile app & Web
- Device health check, real-time tracking, last parked location, secure mode smart alarm, ADR, driving score, find my car, speed limit, trip review, safe driving alert, add cars and add drivers

---

VIP assist

1. Unlimited towing to any authorised workshop nationwide in case of flood, breakdown or accident
2. Repair on-site (up to RM300 free labour) in case of flat tyre replacement, battery change, jumpstart or out of fuel delivery
3. Accident transport allowance up to RM2,000 in case of accident repair at an authorised workshop

Terms & conditions apply

Cobra Connex Defence

Anti-theft
- Wire-free self-powered device with 3 telcos roaming SIM (Celcom, Digi, Maxis) for stolen vehicle recovery

Wire-free solution
- Designed to manage assets that need to be deployed for long periods without external power supply

Anti-scan/detection
- This unit is installed in a covert location and is virtually impossible to detect as the GPS and GSM/GPRS modules remain in a sleep mode most of the time

Stand-alone or back-up device
- This innovative on-demand theft assistance service can be offered as a stand-alone solution, or as a back-up to the main vehicle tracking product, thus increasing the level of security

Mobile app
- Device configuration, device health check, last parked location, view user profile and vehicle tracking in real-time when activated

Note: All service fees are subject to 8% service tax. All features and descriptions are subject to change without prior notice. Terms & conditions apply.
